

Application for support to obtain foreign validation of a New Zealand aviation design approval

Note: The CAA Standard Rate hourly charge applies.

Section A – Applicant

<p>Notes:</p> <ol style="list-style-type: none"> 1. The foreign validation of a New Zealand design approval is likely to require support from the Civil Aviation Authority of New Zealand. This form is used to initiate the process. 2. The support to obtain a foreign validation of a New Zealand aviation project is a chargeable activity at the rate specified in the applicable Civil Aviation Charges Regulations. 3. Fill this form and email to certification@caa.govt.nz, or post to Civil Aviation Authority, PO Box 3555, Wellington 6140. 					
Name of Applicant (organisation name)					
CAA Client ID (if known)					
Address for Service					
<p><i>The Civil Aviation Act, s8, requires applicants to provide an address for service in New Zealand (ie, a physical address) and to promptly notify the Director of any changes.</i></p>					
Postal Address (If different)					
Tel		Fax		Email	

Section B – Details for Invoice

Please provide the name of the organisation or individual, and address for the invoice to be sent, if different to above.	

Section C – Details of the New Zealand design approval for which validation is sought

CAA NZ approval reference number (i.e. New Zealand STC number or equivalent for TC related applications)		
Product description		

Section D – Foreign Authority for which validation is sought

<p>This section is to capture which foreign authority the applicant intends to seek foreign validation of New Zealand products. This will assist the CAA with initiating dialogue with the relevant foreign authority.</p> <p>It does not indicate that there is a suitable arrangement in place for validation or what the requirements for validation by the foreign authority will be.</p>	
Authority (tick all where support with validation is requested)	Additional information and other items to be submitted with application
Civil Aviation Safety Authority of Australia	<p>For Type Certificate applications/amendments, fill out a CASA Form 735 and supply it including associated documents specified on the form 735 with this application.</p> <p>No application is required for STC's and TC holder modifications which are automatically accepted by CASR.</p>
United States Federal Aviation Administration	<p>Fill out FAA Form 8110-12 and attach a copy to this application</p> <p>A Bilateral agreement defines how New Zealand design approvals are to be validated in the United States. The agreement sets out the FAA requirements for the validation depending on the approval to be validated. Please provide the information required by the Bilateral Agreement for the type of product for which validation is sought. (Para 3.2.2.3 for Type Certificates and Para 3.3.2.3 for Supplementary Type Certificates)</p>
Transport Canada	<p>Please submit this application form and the CAA will work with the applicant and foreign authority to define the other requirements.</p>
European Union Aviation Safety Agency	<p>Lodge an application with EASA for the validation and attach a copy to this application. EASA provides information on how to lodge an application here.</p> <p>Please submit this application form and the CAA with work with the applicant and foreign authority to define the other requirements.</p>
Civil Aviation Authority of China	<p>Please submit this application form with the appropriate data defined by the CAAC/CAANZ Technical Agreement (contained in appendix B for type certificates and appendix D for STCs) and the CAA will work with the applicant and foreign authority to define the other requirements.</p>
Other (please specify)	<p>Please submit this application form and the CAA will work with the applicant and foreign authority to define the requirements for foreign validation in that State.</p>

Section E – Declaration

<p>I declare that to the best of my knowledge and belief the statements made, and the information supplied in this application and the attachments are complete and correct.</p>
